

ELEVATIONS SHOULD INCLUDE:

- Scale and compass point;
- Location, size, and height of windows & doors;
- Roof slopes and material;
- Relationship of additions or alterations as applicable;
- Height of landings, decks, stairs and guardrails;
- Siding materials and clearance to grade;
- Indicate any changes in elevations and/or setbacks to ascending or descending grade;
- Flashing specifications;
- Gutters and downspouts;
- Gas meter, heat pumps and other utility entrances; and
- Physical address.

Elevations show roughly what the exterior of the structure will look like when finished. They should include all four directions unless they are very similar in nature.

36" HIGH GUARDRAIL WITH INTERMEDIATE RAILS SPACED SO THAT AN OBJECT 4"Ø CAN NOT PASS THROUGH. (REQUIRED IF 30" OR MORE ABOVE GRADE)

SIDE ELEVATION

SCALE: 1/8" = 1'
