*Manufactured Dwelling Placement Permits

Includes concrete slab, runners or foundations that are prescriptive, electrical feeder and plumbing connections and all cross-over connections and up to 30 lineal feet of site utilities. Decks, other accessory structures, and foundations that are not prescriptive, utility connections beyond 30 lineal feet, new electrical services or additional branch circuits, and new plumbing – may require separate permits. All decks 30" above ground, carports, garages, porches, and patios are based on valuation and may also require separate permits. See Valuation Data Table for non-dwelling modular placements.

*Solar (prescriptive and non-prescriptive)

Includes the solar panels, racking, mounting elements, rails and cost of labor to install. Solar electrical equipment including collector panels and inverters shall be excluded from the Structural Permit valuation.

Effective April 25, 2022
