## **Chapter 16.06: Mixed-Use Land Use Zone**

### **16.06.010 BACKGROUND**

- A.** This Chapter contains all of the standards for the Mixed-Use Zone (Z-MU). The standards are intended to be applied to all reviews in the Mixed-Use Zone.
- B.** The creation of a lot or parcel through the subdivision or partition process is an outright permitted action in the Mixed-Use Zone subject to the provisions of Chapter 16.22 and any other applicable requirements in this Code (e.g., Community Development Standards, chapters 16.12-16.19).

### **16.06.020 PURPOSE**

- A.** The purpose of the Mixed-Use Zone is to provide lands that possess potential for several types of land use or combinations of different land uses. The intent of this designation is to achieve an environment in which different land uses can co-exist by providing building groupings for privacy, usable and attractive open spaces, and safe circulation, thus promoting the general well being of the residents, businesses, and other occupants. Effective mixed-use zones not only allow the co-location of various types of uses, but they also promote compatible architectural design and connectivity of buildings to streets and paths. Residential mixed-use encourages planners and developers to look beyond the traditional subdivision design and think about new and efficient utilization of land. Such innovative designs can provide residents access to commercial services as well as amenities such as parks, trails, and open spaces, and hence promote community-friendly development<sup>1</sup> that is highly compatible with surrounding uses and promotes a sense of community.
- B.** Mixed Use lands are open to all types of development including residential, commercial, and light (Class I and II Impacts) industrial land uses.
- C.** The Mixed-Use Zone is intended to:
  - 1.** Promote efficient use of land and urban services.
  - 2.** Create a mixture of land uses that encourages employment and housing options in close proximity to one another.
  - 3.** Encourage pedestrian-oriented development in all mixed-use areas.
  - 4.** Provide connections to and appropriate transitions between residential areas and commercial areas.
  - 5.** Promote independence of movement, especially for the young and the elderly who can conveniently walk, cycle, or ride transit.

---

<sup>1</sup> Lebanon's approach to community friendly development includes principles that combine sound local and regional planning techniques with a variety of elements from several different perspectives. Such principles focus on creating a built environment suitable for the needs of a diverse population through a variety of uses scaled for the pedestrian, and capable of accommodating the automobile and mass transit. See Chapter 7 of Lebanon's Comprehensive Plan for additional details.

6. Promote safety in commercial areas, through the around-the-clock presence of people.
7. Provide opportunities for the development of support services and amenities in neighborhoods so as to encourage those who choose to work at home, home occupations and the further decentralization and diversification of the local economy.
8. Encourage reduction in auto use, especially by shortening trips between residences and jobs/services/recreation.
9. Encourage the development of a variety of housing choices.

## **16.06.030 INTRODUCTION**

### **A. Impact Classifications**

1. As noted in Chapter 16.03, all land use types are further divided into three subcategories by the degree of impacts or off-site impacts that the uses could reasonably be expected to exert on the surrounding properties and neighborhood.
2. Please see Section 16.03.010.E of Chapter 16.03 (pages 2 and 3) for the details of this impact classification system.

### **B. Key to Procedures, Standards, and Conditions of Approval**

1. **Outright Permitted Uses with Site Review and Building Permit:** “OP” means the use is permitted outright and a **Building Permit** is issued after a **site review** determines that all setbacks and other lot and building site requirements are satisfied.
2. **Permitted Uses with Ministerial Review:** “MR” approval is gained through a ministerial review process (see Chapter 16.20).
3. **Permitted with Administrative Review:** “AR” means the use is permitted through an Administrative Review process that takes into account all applicable requirements (see Chapter 16.20).
4. **Permitted with Conditional Use Approval:** “CU” means the use is permitted with a Conditional Use approval (Chapter 21).
5. **Site Reviews:** The processing of a variety of land use applications may also include detailed site reviews (site plan reviews). These requirements are addressed in LDC Chapters 16.21-16.24 (Article Four).
6. **Decision Criteria and/or Additional Conditions of Approval:** The standards and review processes outlined in this Code in **Article Three: Community Development and Use Standards** and in **Article Four: Land Use And Development Review/Approval Requirements And Procedures**, as well as applicable Overlay Zones (Chapter 16.11) may set additional decision criteria and/or conditions of approval.
7. **Not Permitted:** The code provisions are also intended to make it more difficult to place incompatible uses near one another; an “N” designation means the use is not permitted.
  - a. **Existing Uses.** The “Not Permitted” (“N”) designation is not retroactive and does not impact existing uses.
  - b. **No New Uses.** The “Not Permitted” (“N”) designation indicates that no new uses of this type are allowed on a property to which this designation applies.

## **16.06.040 PROCESS FOR REVIEW OF MIXED USE LAND USE APPLICATIONS**

### ***A. Mixed Use Land Uses***

All applications for development in the Mixed Use Zone for projects that are **not** deemed Major Land Use Actions are subject to:

1. The appropriate review process indicated in **Tables 16.06-2 thru 16.06-6**, and
2. May also be subject to:
  - a. Site Reviews (e.g., to determine that all setbacks and other lot and building site requirements are satisfied).
  - b. The standards noted and review processes outlined in this Code in Article Three: Community Development and Use Standards and in Article Four: Land Use And Development Review/Decision Requirements And Procedures,
  - c. Applicable Overlay Zones (Chapter 16.11) may set additional conditions of approval.

### ***B. Process for Basic Review of Applications and Impact Mitigation for Projects Deemed Major Land Use Actions thus Requiring Planned Development Reviews***

1. For purposes of this chapter, if a proposed development in a mixed use zone is deemed a Major Land Use Action according to **Table 16.06-1** on the following page, it shall be processed as a Planned Development.
2. See Chapter 16.23 for the details of the process for *Planned Development Reviews*.

**Table 16.06-1: Characteristics of Major Land Use Actions in the Mixed Use Zone  
(Projects in the Mixed Use Zone Requiring a Planned Development Review)**

Note: Acreage refers to the size of the area being developed, not the total parcel or lot size.

Characteristics	Residential Uses	Commercial Uses	Industrial Uses	Public and Other Uses	Mixed Uses*
<b>If the project's acreage exceeds the thresholds below, that land use application shall be deemed a Major Land Use Action and processed as a Planned Development (see Chapter 16.23).</b>

* <b>MIXED-USE DEVELOPMENT:</b> Mixed use development is the co-location of various types of uses within a single building, complex or site. For example, Mixed Use Development could include residential with commercial, or with public or institutional uses, or multi-family with single family dwellings. Mixed Use Development could be "vertical" (e.g., housing above ground floor commercial), and/or "horizontal" (housing in one or more buildings, and commercial or other uses in other buildings on a site, or multi-family dwellings and single family dwellings on a site), or both vertical and horizontal mixed use on a mixed use site.

## 16.06.100 MIXED USE ZONE DEVELOPMENT STANDARDS

### A Development Standards for Mixed Use

The development standards in Table 16.06-7 apply to all uses, structures, buildings, and development, and major remodels, in the Mixed Use Zone (Z-MU).

<b>Table 16.06-7: Development Standards for Mixed Use</b>	
<b>Standard</b>	<b>Z-MU</b>
<b>Lot Sizes</b>	
<b>All Residential Uses</b>	Same as Residential Mixed Density (Z-RM) Requirements
<b>All Other Uses</b>	There shall be no minimum lot size for other uses.
<b>Site Development Requirements</b>	
<b>All Uses</b>	Required yards and other site development standards shall be required as if the use proposed was in the Z-RM, Z-NMU, Z-NCM, Z-CCM, Z-HCM, Z-IND, or Z-PU zone. The placement of the use in a zone with respect to site development requirements shall be made by the Planning Official in consideration of the request.
<b>Clear Vision Area</b>	
<b>All Uses</b>	A clear vision area shall be maintained as provided in Section 12-2.7.4, and a 20 foot triangle at intersections.

### B. Utilization of Appropriate Development Standards for the Different Types of Land Use Requests Permissible in the Mixed Use Zone

1. Mixed development lands are open to a variety of development types including residential uses, many commercial uses, light (Class I and II Impacts) industrial uses, and public uses (see Tables 16.06-2 thru 16.06-6).
2. The Mixed Use Zone includes **development** standards applicable for all development in this zone.
3. In addition, the development standards applicable to other types of land uses shall be utilized in setting the conditions of approval:
  - a. For Residential Uses in the Mixed Use Zone, see the standards in Chapter 16.05.
  - b. For Commercial Uses in the Mixed Use Zone, see the standards in Chapter 16.08.
  - c. For Industrial Uses in the Mixed Use Zone, see the standards in Chapter 16.09.
  - d. For Public Uses in the Mixed Use Zone, see the standards in Chapter 16.10.
4. The Conditional Use Review (Chapter 16.21), and/or Review of Planned Developments (Chapter 16.23) may set additional conditions of approval.

**C. Expansion of Existing Commercial, Industrial and Public Facilities in the Mixed Use Zone**

Additions to existing structures or the construction of new buildings, that do not result in more than a 10% increase in the existing building or improvement square footage, shall be subject to the following requirements:

1. If the establishment of the new use requires a Conditional Use, then the expansion identified in this Section shall be subject to an Administrative Review.
2. If the establishment of the new use requires an Administrative Review, then the expansion identified in this Section shall be subject to a Ministerial Review.
3. This Section does not alter requirements for facilities approved by the Planned Development Process.

**16.06.110 SPECIAL DEVELOPMENT STANDARDS FOR CERTAIN USES**

Where permitted by the Development Code, the following standards shall apply for Gas (Filling) Stations in the Mixed-Use zone:

**A. General Standards:**

1. Parcel Size: No Gas (Filling) Station shall be located on a parcel containing less than 12,000 square feet in area.
2. Location: There are no location standards required for the Commercial and Industrial zones. In Mixed Use and Neighborhood Mixed-Use zones, Fueling Stations may be located at intersections of the following type of major intersections:
  - a. At the intersection of two Minor and/or Principal Arterials
  - b. At the intersection of an Arterial (Minor or Principal) and a Collector
3. Canopy lighting: Lighting fixtures installed within the fueling island canopy shall not extend below the canopy ceiling. The lighting fixtures, illumination intensity and direction shall comply with LDC 16.19.050 (Exterior Lighting)
