## Chapter 16.07: Neighborhood Mixed-Use Zone

### 16.07.010 BACKGROUND

- A. This Chapter contains all of the standards for the Neighborhood Mixed-Use Zone (Z-NMU). The standards are intended to be applied to all reviews in the Neighborhood Mixed-Use Zone.
- B. The creation of a lot or parcel through the subdivision or partition process is an outright permitted action in the Mixed Use Zone subject to the provisions of Chapter 16.23 and any other applicable requirements in this Code (e.g., Community Development Standards, Chapters 16.12 - 16.19).

### 16.07.020 PURPOSE AND IMPLEMENTATION

#### A. Purpose

1. To provide lands suitable for primarily residential uses, with flexibility to allow neighborhood commercial services, in a transition area between commercial and residential areas.
2. Commercial, Light Industrial, and "Other" Land Uses shall not occupy more than 5,000 square feet in any single structure. However, such building size restrictions do not apply to allowed Residential uses and Public Uses (Civic and Institutional).
3. The types of businesses envisioned in this area include coffee shops, delis, bakeries, small offices, or day care facilities. Essentially, the Neighborhood Mixed-Use Zone is a blending of commercial and residential uses to create a transition zone between such uses. Specifically, the Neighborhood Mixed Use Zone combines elements of the Neighborhood Commercial (Z-NCM) and Mixed Density Residential (Z-RM) zones.
4. The Neighborhood Mixed-Use Zone is intended to:
  - a. Provide a buffer or transition between commercial development and residential areas.
  - b. Provide effective connectivity for pedestrians and bicyclists between residential areas and commercial areas.
  - c. Encourage pedestrian-oriented development.
  - d. Promote efficient use of land and urban services.
  - e. Promote independence of movement, especially for the young and the elderly who can conveniently walk, cycle, or ride transit.
  - f. Create a mixture of land uses that encourages employment and housing options in close proximity to one another.
  - g. Provide opportunities for the development of support services and amenities in neighborhoods so as to encourage those who choose to work at home, home occupations and the further decentralization and diversification of the local economy.
  - h. Encourage reduction in auto use, especially by shortening trips between residences and jobs/services/recreation.
  - i. Encourage the development of a variety of housing choices.

## **B. Implementation**

As noted in Chapter 4 of the 2004 Lebanon Comprehensive Plan, “[t]he new 2004 category of **Neighborhood Mixed Use** is a category to which property can be redesignated by future Comprehensive Plan Map amendments. However, this Comprehensive Plan does not assign any land to this new designation.” Given the transitional nature of this zone, any redesignation of parcels to C-NMU (and subsequently Z-NMU) must not only be consistent with the purposes of this zone, the land proposed for redesignation must also be adjacent to both commercial and residential areas.

### **16.07.030 INTRODUCTION**

#### **A Impact Classifications**

1. As noted in Chapter 16.03, all land use types are further divided into three subcategories by the degree of impacts or off-site impacts that the uses could reasonably be expected to exert on the surrounding properties and neighborhood.
2. Please see Section 16.03.010.E of Chapter 16.03 (pages 2 and 3) for the details of this impact classification system.

#### **B Key to Procedures, Standards, and Conditions of Approval**

1. **Outright Permitted Uses with Site Review and Building Permit:** “OP” means the use is permitted outright and a **Building Permit** is issued after a **site review** determines that all setbacks and other lot and building site requirements are satisfied.
2. **Permitted Uses with Ministerial Review:** “MR” approval is gained through a ministerial review process (see Chapter 16.20).
3. **Permitted with Administrative Review:** “AR” means the use is permitted through an Administrative Review process that takes into account all applicable requirements (see Chapter 16.20).
4. **Permitted with Conditional Use Approval:** “CU” means the use is permitted with a Conditional Use approval (Chapter 16.21).
5. **Site Reviews:** The processing of a variety of land use applications may also include detailed site reviews (site plan reviews). These requirements are addressed in LDC Chapters 16.21 - 16.24 (Article Four).
6. **Decision Criteria and/or Additional Conditions of Approval:** The standards and review processes outlined in this Code in **Article Three: Community Development and Use Standards** and in **Article Four: Land Use And Development Review/Decision Requirements And Procedures**, as well as applicable Overlay Zones (Chapter 16.11) may set additional decision criteria and/or conditions of approval.
7. **Not Permitted:** The code provisions are also intended to make it more difficult to place incompatible uses near one another; an “N” designation means the use is not permitted.
  - a. **Existing Uses.** The “Not Permitted” (“N”) designation is not retroactive and does not impact existing uses.
  - b. **No New Uses.** The “Not Permitted” (“N”) designation indicates that no new uses of this type are allowed on a property to which this designation applies.

## **16.07.040 PROCESS FOR REVIEW OF NEIGHBORHOOD MIXED-USE LAND USE APPLICATIONS**

### ***A. Neighborhood Mixed-Use Zone Reviews***

All applications for **Residential**, **Commercial**, **Industrial**, **Public**, and **Other Uses** in the Neighborhood Mixed-Use Zone (Z-NMU) that are **not** deemed Major Land Use Actions are subject to:

1. The appropriate review process indicated in **Tables 16.07-2 thru 16.07-6**, and
2. May also be subject to:
  - a. Site Reviews (e.g., to determine that all setbacks and other lot and building site requirements are satisfied).
  - b. Standards noted and the review processes outlined in this Code in Article Three: Community Development and Use Standards and in Article Four: Land Use And Development Review/Decision Requirements And Procedures,
  - c. Applicable Overlay Zones (Chapter 16.11) may set additional conditions of approval.

### ***B. Process for Basic Review of Applications and Impact Mitigation for Projects Deemed Major Land Use Actions thus Requiring Planned Development Reviews***

1. For purposes of this chapter, if a proposed development in a mixed use zone is deemed a Major Land Use Action according to **Table 16.07-1** on the following page, it shall be processed as a Planned Development.
2. See Chapter 16.23 for the details of the process for *Planned Development Reviews*.

**Table 16.07-1:  
Characteristics of Major Land Use Actions in the Neighborhood Mixed-Use Zone  
(Projects in the Neighborhood Mixed Use Zone Requiring a Planned Development Review)**

Note: Acreage refers to the size of the area being developed, not the total lot or parcel or lot size.

<b>Characteristics</b>	<b>Residential Uses</b>	<b>Commercial Uses</b>	<b>Industrial Uses</b>	<b>Public and Other Uses</b>	<b>Mixed Uses *</b>

**\* MIXED-USE DEVELOPMENT:** Mixed use development is the co-location of various types of uses within a single building, complex or site. For example, Mixed Use Development could include residential with commercial, or with public or institutional uses). Mixed Use Development could be "vertical" (e.g., housing above ground floor commercial), and/or "horizontal" (housing in one or more buildings, and commercial or other uses in other buildings on a site), or both vertical and horizontal mixed use on a mixed use site.

## 16.07.100 NEIGHBORHOOD MIXED-USE ZONE DEVELOPMENT STANDARDS

### A. Development Standards for the Neighborhood Mixed-Use Zone

The development standards in Table 16.07-7 apply to all uses, structures, buildings, and development, and major remodels, in the Neighborhood Mixed-Use Zone (Z-NMU).

<b>Table 16.07-7: Development Standards for Neighborhood Mixed Use Zone</b>	
<i>Standard</i>	
<b>See Lot Sizes (Table 16.6-6), Building/Structure Height (Table 6.06-7), Lot Coverage (Table 16.6-8)</b>	
<b>All Residential Uses</b>	Same as Residential Mixed Density (Z-RM) Requirements
<b>All Other Uses</b>	There shall be no minimum lot size for other uses.
<b>Yard Requirements</b>	
<b>All Uses</b>	Yards shall be required as if the use proposed was in the Z-RM, Z-NCM, or Z-PU zone. The placement of the use in a zone with respect to yard requirements shall be by the Planning Official.
<b>Clear Vision Area</b>	
<b>All Uses</b>	A clear vision area shall be maintained as provided in Section 12-2.7.4, and a 20 foot triangle at intersections.

***B. Utilization of Appropriate Development Standards for the Different Types of Land Use Requests Permissible in the Neighborhood Mixed-Use Zone***

Neighborhood Mixed-Use lands are open to a variety of development types including residential, limited light commercial, limited Public Uses, and limited very light (select Class I) industrial land uses, subject to the following standards.

1. Non-residential development is required to utilize site designs that minimize adverse impacts to adjacent residential properties.
2. The Neighborhood Mixed-Use Zone includes development standards applicable for all development in this zone.
3. In addition, the development standards applicable to other types of land uses shall be utilized in setting the conditions of approval:
  - a. For Residential Uses in the Mixed Use Zone, see the standards in Chapter 16.05.
  - b. For Commercial Uses in the Mixed Use Zone, see the standards in Chapter 16.08.
  - c. For Industrial Uses in the Mixed Use Zone, see the standards in Chapter 16.09.
  - d. For Public Uses in the Mixed Use Zone, see the standards in Chapter 16.10.
4. The Conditional Use Review (Chapter 16.21), Subdivision Review (Chapter 16.22), and/or Review of Planned Developments (Chapter 16.23) may set additional conditions of approval.

## **16.07.110 SPECIAL DEVELOPMENT STANDARDS FOR CERTAIN USES**

Where permitted by the Development Code, the following standards shall apply for Gas (Filling) Stations in the Mixed-Use zone:

### **A. General Standards:**

1. Parcel Size: No Gas (Filling) Station shall be located on a parcel containing less than 12,000 square feet in area.
2. Location: There are no location standards required for the Commercial and Industrial zones. In Mixed Use and Neighborhood Mixed-Use zones, Fueling Stations may be located at intersections of the following type of major intersections:
  - a. At the intersection of two Minor and/or Principal Arterials
  - b. At the intersection of an Arterial (Minor or Principal) and a Collector
3. Canopy lighting: Lighting fixtures installed within the fueling island canopy shall not extend below the canopy ceiling. The lighting fixtures, illumination intensity and direction shall comply with LDC 16.19.050 (Exterior Lighting)
