STORM DRAINAGE MASTER PLAN

TABLE OF CONTENTS

Cover Sheet
Table of Contents
List of Figures
List of Tables

1. GOALS AND OBJECTIVES
2. WATERSHED
 - 2.1 Location
 - 2.2 Study Area Delineation
 - 2.3 Climate
 - 2.4 Soils
 - 2.5 Topographical Features
 - 2.6 Existing Drainage Facilities
 - 2.6 Land Use
3. METHODOLOGY
 - 3.1 Basic Assumptions
 - 3.2 Hydrologic Analysis
 - 3.3 Hydraulic Analysis
 - 3.4 Analysis Approach
4. BASIN DELINEATION AND MODEL PARAMETERS
 - 4.1 Major Drainage Basins
 - 4.2 Sub-Basin Delineation Methodology
 - 4.3 Sub-Basin Coding Convention
 - 4.4 Effective Impervious Area
 - 4.6 Soil Loss Parameter
 - 4.7 Lag Time
 - 4.8 Summary of Parameters
5. RAINFALL ANALYSIS
 - 5.1 Development of Intensity-Duration-Frequency Curves
 - 5.2 Selection of Design Storm
 - 5.3 Development of Rainfall Hyetographs
6. RUNOFF ANALYSIS
 - 6.1 Peak Sub-Basin Flows

- 6.2 Peak Cumulative Flows
- 6.3 Partial Sub-Basin Flows

7. HYDRAULIC ANALYSIS RESULTS AND DRAINAGE IMPROVEMENTS

- 7.1 Marx Slough - Had Irvine Park
- 7.2 Lebanon-Albany Canal - Booth Park
- 7.3 Cox Creek - Mill Pond Area
- 7.4 Cox Creek - Santiam Highway
- 7.5 Cox Creek - Lebanon Highway
- 7.6 Cox Creek - Lebanon High School
- 7.7 Cox Creek - Oak Street
- 7.8 Cox Creek - Lebanon Highway
- 7.9 Cox Creek - UGB
- 7.10 Cox Creek - Sunset Road
- 7.11 Cox Creek - Hansard Avenue
- 7.12 Cox Creek - Industrial Park
- 7.13 'X' Creek - Industrial Way
- 7.14 Santiam River - River Park
- 7.15 Santiam River - Willamette Industries
- 7.16 Oak Creek - Rock Drive
- 7.17 Oak Creek - Crowfoot Road
- 7.18 Oak Creek - Vaughn Lane
- 7.19 Oak Creek - 10th Street
- 7.20 Oak Creek - South Main Road
- 7.21 Oak Creek - Stoltz Hill Road
- 7.22 Oak Creek - Linn Benton Community College
- 7.23 Little Oak Creek - Airport

8. CAPITAL IMPROVEMENT PHASING

- 8.1 Phasing Periods
- 8.2 Phasing Criteria
- 8.3 Priority
- 8.4 Summary of Recommended Projects
- 8.5 Drainage Funding Options
- 8.6 Alternative Revenue Sources
- 8.7 Financing Tools
- 8.8 Development of a Drainage Financing Plan

9. DRAINAGE SYSTEM STANDARDS

- 9.1 Standard Construction Details and Specifications
- 9.2 Engineering
- 9.3 Drainageway Alignment
- 9.4 Compliance with Master Drainage Plan
- 9.5 Design Storm Selection
- 9.6 Storm Drain System Construction
- 9.7 Natural Drainage Watercourses

CITY OF LEBANON
Storm Drainage Master Plan
TABLE OF CONTENTS
Page 3

- 9.8 Artificial Watercourses
- 9.9 Storm Water Detention
- 9.10 Storm Water Quality Facilities
- 9.11 Erosion Control

- 10. WATER QUALITY
 - 10.1 Types of Non-Point Source Contaminants
 - 10.2 Common Methods of Removal
 - 10.3 Agency Climate
 - 10.4 Recommendations

- 11. FLOODPLAIN ANALYSIS
 - 11.1 Oak Creek
 - 11.2 Cox Creek
 - 11.2.1 Existing 100 Year Floodplain
 - 11.2.2 Future Unimproved 100 Year Floodplain
 - 11.2.3 Future Unimproved 100 Year Floodplain

- 12. OPERATION AND MAINTENANCE
 - 12.1 Existing Maintenance and Operations
 - 12.2 Recommendations

APPENDIX

City of Lebanon

STORM DRAINAGE MASTER PLAN

LIST OF FIGURES

FIG#	TITLE
1.1	Vicinity Map
2.1	Aerial Map
2.2	Watershed Map
2.3	Oak Creek Drainage Basin Map
2.4	Hydrologic Soil Group Map
2.5	Land Use Map
4.1	Major Basin and Sub-basin Map
4.2	Sub-Basin Coding Conventions
5.1	NOAA Atlas/Waterloo Guage Rainfall Comparison
5.2	SCS Rainfall Distribution Curve Type 1A
5.3	Rainfall Intensity-Frequency Duration Curves
5.4	SCS Type 1A - 24 Hour Rainfall Hyetograph
6.1	Calculation of Flow in Minor Reaches
7.0A	Plan Reference Sheet
7.0B	Plan View Legend
7.1	Marx Slough - Had Irvine Park
7.2A	Lebanon Canal - Booth Park (Canal Available)
7.2B	Lebanon Canal - Booth Park (Canal Not Available)
7.3	Cox Creek - Mill Pond Area
7.4	Cox Creek - Santiam Highway
7.5	Cox Creek - Market Street
7.6	Cox Creek - Lebanon High School
7.7	Cox Creek - Oak Street
7.8	Cox Creek - Lebanon Highway
7.9	Cox Creek - UGB
7.10	Cox Creek - Sunset Road
7.11A	Cox Creek - Lebanon Hospital (Alt. A1)
7.11B	Cox Creek - Lebanon Hospital (Alt. A2)
7.12	Cox Creek - Industrial Park

- 7.13 Crown Creek - Industrial Way
- 7.14 Santiam River - River Park
- 7.15A Santiam River - Willamette Ind. (Canal Available)
- 7.15A Santiam River - Willamette Ind. (Canal Not Available)
- 7.16 Oak Creek - Rock Drive
- 7.17 Oak Creek - Crowfoot Road
- 7.18 Oak Creek - Vaughan Lane
- 7.19 Oak Creek - 10th Street
- 7.20 Oak Creek - South Main Road
- 7.21 Oak Creek - Stoltz Hill Road
- 7.22 Oak Creek - Linn Benton Community College
- 7.23 Little Oak Creek - Airport

8.1 Drainage Improvement Projects

- 11.1 Flood Plain Reference Map
- 11.2 Cox Creek Flood Plain Maps
- 11.3 Oak Creek 100-Year Flood Plain Maps

**City of Lebanon
STORM DRAINAGE MASTER PLAN**

LIST OF TABLES

TABLE #	TABLE TITLE
2.1	Hydrological Classification of Soils
2.2	Existing and Future Land Use Areas
4.1	Major Drainage Basin Areas
4.2	Mapped Impervious Area Factors
4.3	Hydrologic Soil Group Curve Numbers
4.4	Lag Time Assumptions
4.5	Time of Concentration Equations
4.6	Sub-Basin Parameter Summary
5.1	Historical Rainfall Data - Waterloo Guage
5.2	Precipitation for the 6 Hour and 24 Hour Storm Events
6.1	Sub-Basin Flows
6.2	Peak Drainageway Flows
8.1	Project Cost and Phasing Summary
12.1	Sample Maintenance Management Plan
