Physical description of property and statement of historical significance:

This Moderne commercial one-story brick building is on a rectangular corner lot. The storefront on the west facade has been modernized stucco walls, a deeply recessed entry and large display windows. The transom has been filled with corrugated sheet metal and the cornice above has been removed.

On the south facade the storefront wraps around the southwest corner with stucco walls, a large two-light display window and a closed transom. A blank red brick wall stretches from here back to the southeast corner where there is a service door, an awning and a mezzanine level metal casement window.
